

PREVENTING WORKPLACE VIOLENCE TRAINING

INCLUDING

COMPREHENSIVE ACTIVE SHOOTER INCIDENT MANAGEMENT (CASIM)

Create a safer work environment and decrease the chance of workplace violence in your organization. As more and more unfortunate events happen due to violence in the workplace or to active shooters, we as employers need to make sure our employees are knowledgeable as to what to do in case either one of these incidents occur. PIASC has joined with O.S.T.S., Inc. to offer members 4 hours of training to help manage disruptive and aggressive behavior in the workplace.

The United States Department of Homeland Security defines the active shooter as “an individual actively engaged in killing or attempting to kill people in a confined and populated area: in most cases, active shooters use firearm(s) and there is no pattern or method to their selection of victims.” Most incidents occur at locations in which the killers find little impediment in pressing their attack. Locations are generally described as soft targets, that is, they carry limited security measures to protect members of the public.

TRAINING INCLUDES:

Violence in the Workplace

- Reasons for increase in Workplace Violence
- Indicators of Workplace Violence
- Assess Your Work Environment
- Know Your Violence Response Procedures
- Pay Attention to the Warning Signs
